SUPPORTING EVERY CHILD: FREE INCLUSION RESOURCES FOR YOUR PRESCHOOL!

When we support children with Autism Spectrum Disorder (ASD), our greatest goal is to create environments where they can play, connect, and thrive. Social development is a collaborative journey and having the right tools makes all the difference in turning evidence-based strategies - like joint attention training and Peer-Based Instruction (PBII) - into everyday classroom successes.

Today, we are thrilled to spotlight two incredible, freely accessible resources developed specifically to support your inclusive teaching journey.

Resource 1: Early Childhood Professionals Guidebook

Whether you are looking to refine your classroom transition strategies, build peer-modeling activities, or better understand cognitive flexibility, this guidebook is your essential manual. Written specifically for early childhood educators, it provides the academic and practical foundation needed to nurture joint attention, turn-taking, and cooperative play in the preschool classroom.

Roadmap for Integration
Policy Recommendations

Co-funded by
the European Union

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

RESOURCE 2: ASD TOOLBOX FOR BUILDING INCLUSIVE PRESCHOOLS

This comprehensive toolbox is packed with visual supports, communication templates, and structured play ideas that help bridge the gap between home and school. It is an invaluable resource for creating predictable schedules, setting up quiet sensory corners, and helping neurotypical peers act as supportive play partners.
